

TSF S.p.A.
PRODUZIONE E COMMERCIO MESCOLE IN GOMMA E MATERIALI SIMILARI

Adro, 16th February 2016

Dear Customers,

TSF is pleased to announce the improvement of its portfolio with the introduction of two new fluorinated compounds to be used in chimney flue field of applications.

Laboratory tests conducted by **IMQ** according to **EN 14241-1:2013** Regulation do prove the compatibility for internal use (*Class T200 W2 K2 LI*) as well as for external use (*Class T200 W2 K2 LE*).

The test reports and relative certificates of conformity are available upon request.

Our technical-commercial department can take into account your request, in order to fulfill your specific enquires with this new family of compounds.

Best regards.
